Minimal Reddit: how it is put together

sketched from the files

Minimal Reddit: the run, step by step

If a step fails, the honest run says so and stops.

Product map: what Minimal Reddit is for

WHAT IT IS

A small project in JSON, JavaScript, Markdown. The README and the files are the whole claim.

WHAT GOES IN

The files at the top of the tree: manifest.json, background.js, README.md.

WHAT COMES OUT

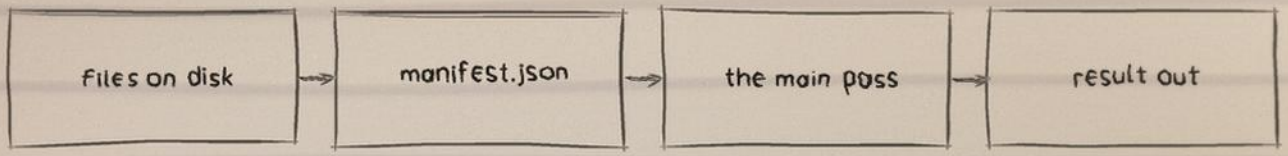

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.
